Release Notes

VitalIntegrity

January 11, 2024

Review the latest VitalIntegrity features and enhancements. For more help and step-by-step instructions, go to the VitalIntegrity Docs.

New Features and Enhancements

Case Accounts Search Filter

Search options are now disabled if you attempt to search by MRN/Account ID and other fields on the Accounts subtab. Previously, a popover message indicated this. No search functionality has changed, this update makes the functionality clearer.

Fixes

We're continuously working to improve your experience using VitalIntegrity. This release includes a number of behind-the-scenes bug fixes, maintenance updates, and optimizations to support that goal.

Release Notes

VitalIntegrity

February 08, 2024

Review the latest VitalIntegrity features and enhancements. For more help and step-by-step instructions, go to the VitalIntegrity Docs.

New Features and Enhancements

New and improved dashboard

The Dashboard user interface is now easier to use and updated for the new version of Vitalware. This is similar to what was previously available in Classic. The Dashboard is now a main tab in the application, making it easier to access the needed information.

The screen is divided into three main sections: header, training, and resources.

Header

The Dashboard tab is now apart of the main header for all Vitalware applications, making it easier to access resources. The dashboard header now features:

- A welcome for users
- The current date
- A Help Us Improve option that allows users to submit feedback and requests.

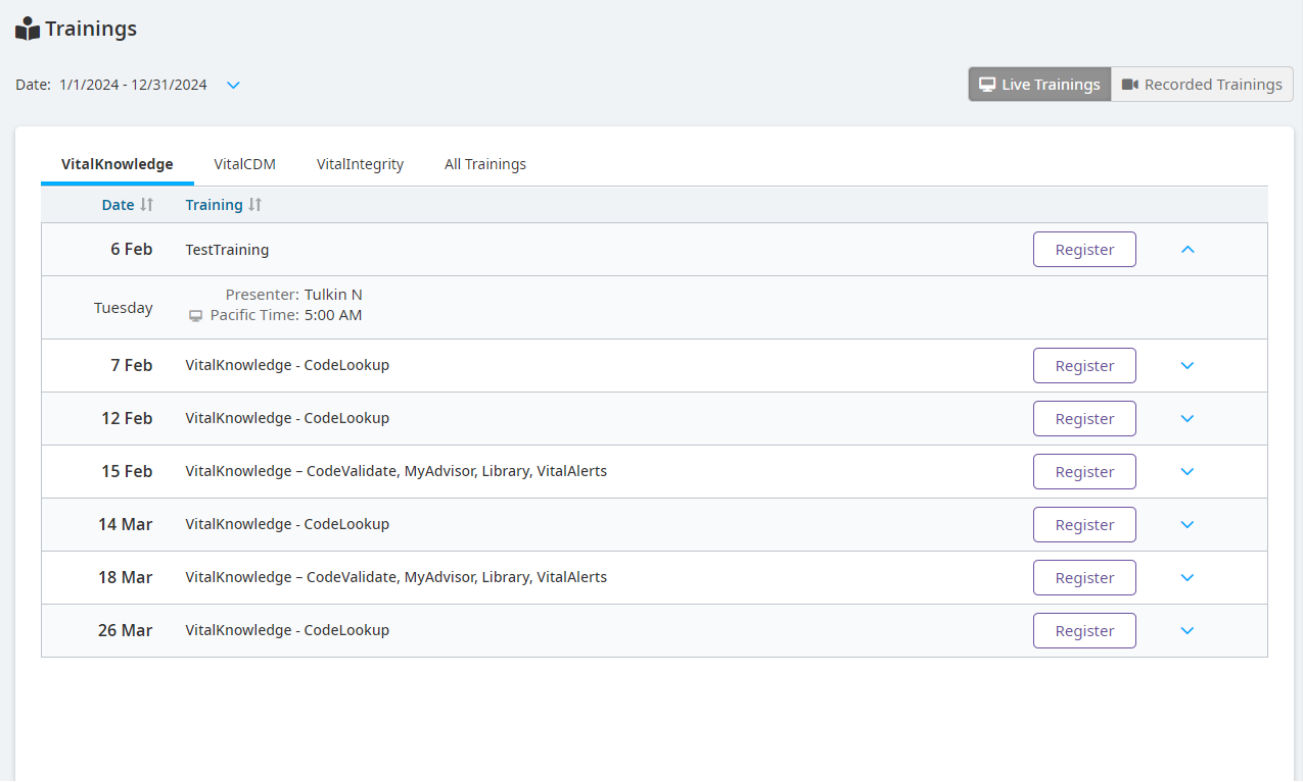

Trainings

You can access live and recorded Vitalware trainings and register for upcoming trainings under the Dashboard tab.

Live trainings expand to show the date, presenter, and time of the training. Recorded trainings expand to show the presenter and duration of the training.

© 2024 Health Catalyst, Inc. All Rights Reserved.

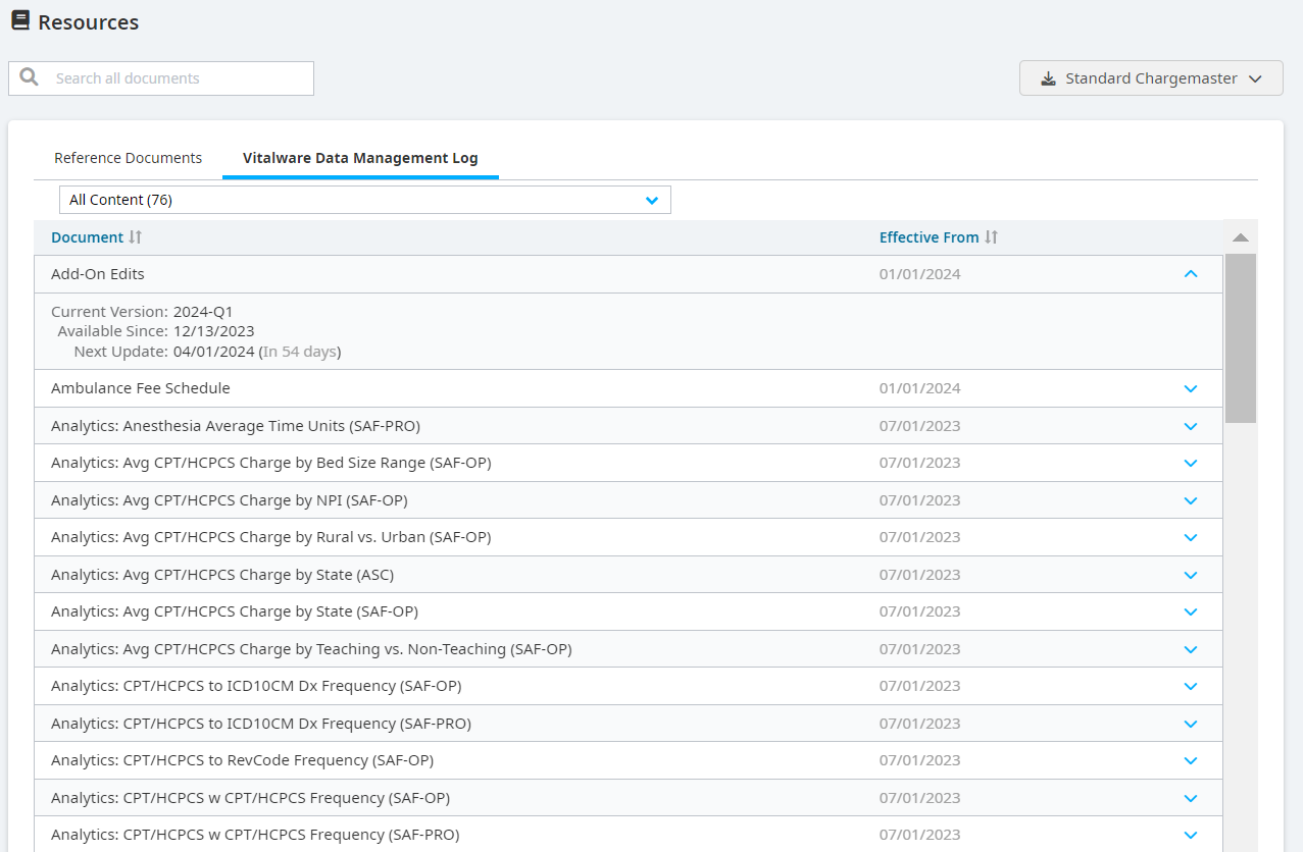

Resources

The Resources section allows you to search for reference documents and Vitalware data management logs. You can also download the standard chargemaster.

- **Reference Documents:** Displays documents with their titles and dates, and it features a download option.
- **Vitalware Data Management Log:** Displays a filterable list of data entries and expands to show each entry's version, how long it's been available, and its next update.

VitalIntegrity

May 16, 2024

Review the latest VitalIntegrity features and enhancements. For more help and step-by-step instructions, go to the VitalIntegrity Docs.

New Features and Enhancements

Epic Billing Indicators update

Epic Integration clients can now assign various Epic Billing Indicators to specific cases, based on details from their account and case data. This populates the VitalIntergrity case results output file with custom Epic Billing Indicator values, which auto-routes accounts to specific work queues when the file is imported. Please reach out to your VitalIntegrity contact for more information.

Missed a release? See the September 19, 2024 or September 05, 2024 releases.

New Features and Enhancements

Update for reordering columns on the Results table

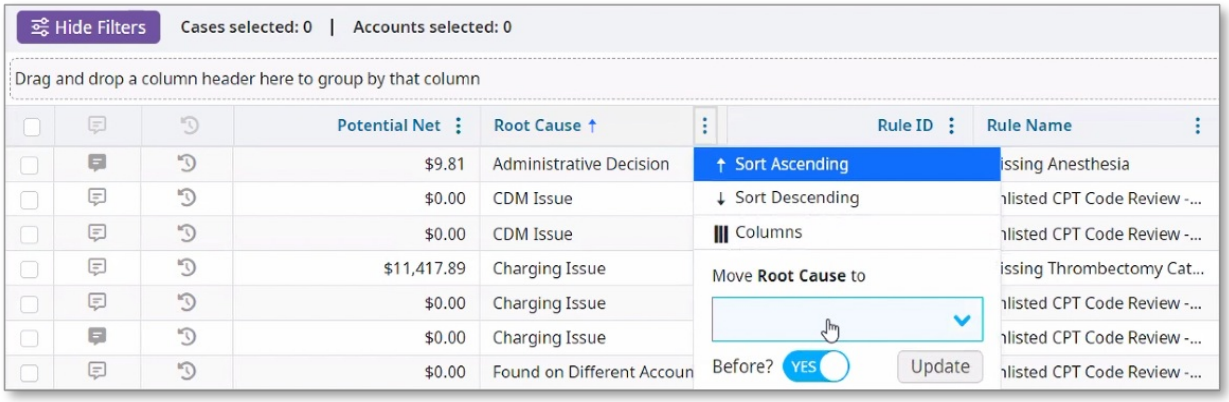

The Results table in VitalIntegrity features a new option to reorder columns. Previously, drag-and-drop was the only way to reorder columns, but this second option makes it easier when there is a large amount of columns on the Results table.

1. Click the three dots icon next to the title of the column you want to reorder on the Results table.

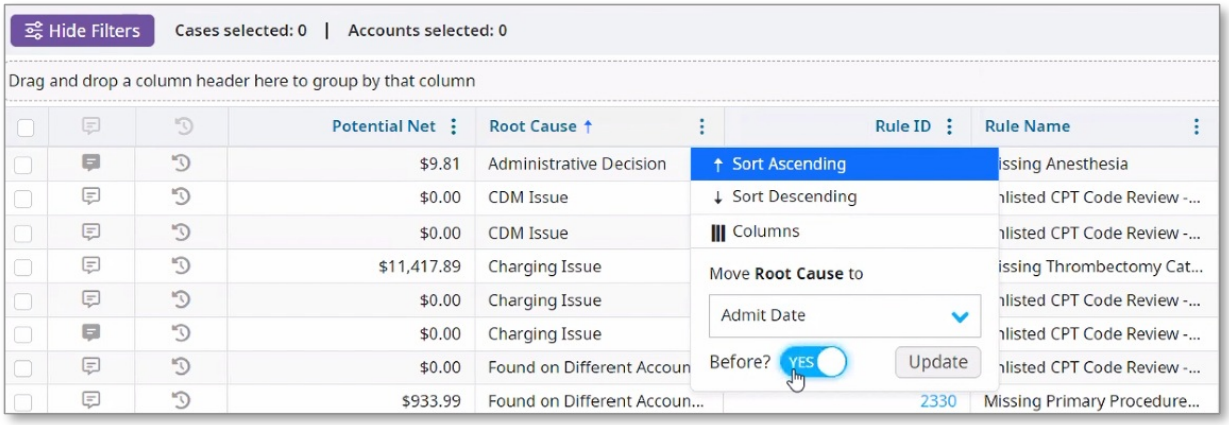

© 2024 Health Catalyst, Inc. All Rights Reserved.

2. Click the caret icon on the empty box to display a list of all of the columns.

3. Select the column you want to move the column you're reordering next to.
4. Select the **Before?** toggle to decide if you want the column you're reordering placed before or after the column you selected from the list.

5. Click **Update** to finalize the changes.

Fixes
