Review the latest VitalKnowledge features and enhancements. For more help and step-by-step instructions, go to the [VitalKnowledge Docs](#).

New Features and Enhancements

Update validation tabs to support deleted codes

In Code Validate, you can now see the proper information about deleted codes in all validation tabs:

- Send deleted codes from the code series to validation endpoints.
- Remove links in OPPS Calculator for deleted codes.
- Add invalid codes for CPT and diagnoses LCD and NCD issues under Medicare Med. Nec.
- Add invalid codes for CPT PTP issues under CCI.

The screenshot displays the Vitalware Code Validate interface. The top navigation bar includes tabs for VitalIntegrity, Code Lookup, Code Validate (active), Library, My Advisor, Vital Alerts, and VitalCDM. The main content area is divided into two sections: Bill Information and Validation Results.

Bill Information: This section contains various input fields for patient and service details, including Entity, Start Date, Patient Gender, Discharge Disposition, State, Condition Code, Occurrence Code, Value Code, and Value Code Amount. It also includes a section for Codes (CPT/HCPCS & Rev Codes) with columns for Code, Description, Modifiers, Units, Rev Code, Charge, and DOS.

Validation Results: This section shows the results of the validation process. It includes a table with columns for Code, Type, LCD, NCD, and Exceptions. The table lists several codes, including 0035U, R56.00, 200.0, 71045, 91312, 0124A, and R56.00. The results indicate that some codes are invalid or have policy issues. A tooltip is visible over the 200.0 code, stating "Deleted code - policy exists".

Diagnoses: This section at the bottom shows a table with columns for Code, Description, Flags, and POA. It lists codes 200.0 and R56.00 with their respective descriptions and flags.

New Features and Enhancements

New and improved dashboard

The Dashboard user interface is now easier to use and updated for the new version of Vitalware. This is similar to what was previously available in Classic. The Dashboard is now a main tab in the application, making it easier to access the needed information.

The screen is divided into three main sections: header, training, and resources.

Header

The Dashboard tab is now apart of the main header for all Vitalware applications, making it easier to access resources. The dashboard header now features:

- A welcome for users
- The current date
- A Help Us Improve option that allows users to submit feedback and requests.

Trainings

You can access live and recorded Vitalware trainings and register for upcoming trainings under the Dashboard tab.

Live trainings expand to show the date, presenter, and time of the training. Recorded trainings expand to show the presenter and duration of the training.

VitalKnowledge		VitalCDM	VitalIntegrity	All Trainings
Date 	Training 			
6 Feb	TestTraining	Register 		
Tuesday	Presenter: Tulkin N  Pacific Time: 5:00 AM			
7 Feb	VitalKnowledge - CodeLookup	Register 		
12 Feb	VitalKnowledge - CodeLookup	Register 		
15 Feb	VitalKnowledge - CodeValidate, MyAdvisor, Library, VitalAlerts	Register 		
14 Mar	VitalKnowledge - CodeLookup	Register 		
18 Mar	VitalKnowledge - CodeValidate, MyAdvisor, Library, VitalAlerts	Register 		
26 Mar	VitalKnowledge - CodeLookup	Register 		

Resources

The Resources section allows you to search for reference documents and Vitalware data management logs. You can also download the standard chargemaster.

- **Reference Documents:** Displays documents with their titles and dates, and it features a download option.
- **Vitalware Data Management Log:** Displays a filterable list of data entries and expands to show each entry's version, how long it's been available, and its next update.

New Features and Enhancements

Empty box icon added to the Guidelines tab

The Guidelines tab on the Code Details pane now features an empty box icon to help you identify data that has no available records.

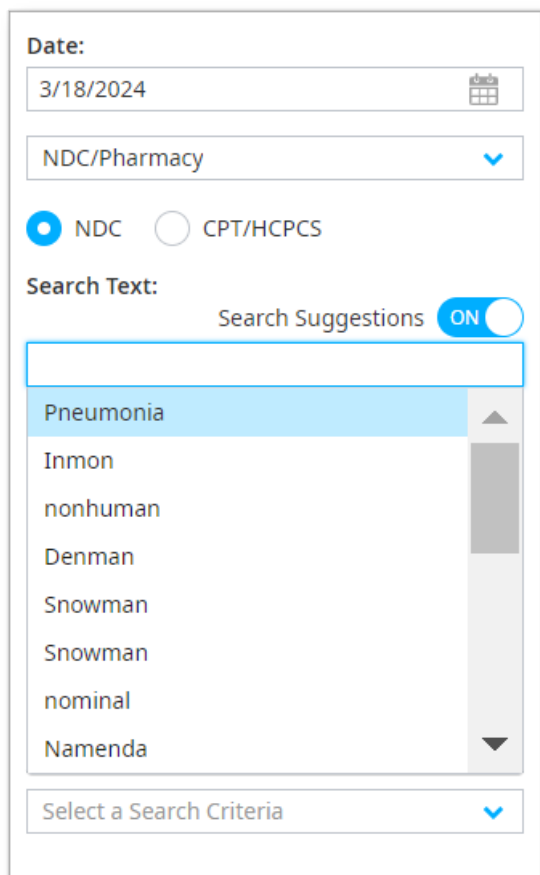

Save views within the Fac Peer Pricing and Pro Peer Pricing tabs

You can now save views from the Fac Peer Pricing and Pro Peer Pricing tabs under the Views section on the Search panel.

Suggestive Search added to Code Lookup

The Search Panel now features a Search Suggestions toggle for all data sets, except ICD-9 CM/ICD-9 PCS and Supplies and Devices.

The screenshot shows a search panel with the following elements:

- Date:** A date picker set to 3/18/2024.
- NDC/Pharmacy:** A dropdown menu with a blue checkmark.
- Radio Buttons:** Two options, **NDC** (selected with a blue dot) and **CPT/HCPCS** (unselected).
- Search Text:** A text input field.
- Search Suggestions:** A toggle switch labeled "ON" with a blue circle.
- Search Results:** A list of suggestions: Pneumonia, Inmon, nonhuman, Denman, Snowman, Snowman, nominal, and Namenda. "Pneumonia" is highlighted in blue.
- Select a Search Criteria:** A dropdown menu with a blue checkmark.

VitalAlerts Admin section updates

- The Admin section under VitalAlerts now features the Departments and Assigned Departments tabs.
- Select a department code from the Department tab to open the Available Users panel and assign VitalAlerts to users.
- Select a department code from the Department tab to view the Assigned Users panel, which lists who was assigned VitalAlerts before. Select the Remove button to unassign users, if needed.

New Features and Enhancements

Enhanced Codes panel management

Clicking the Clear button on the Codes panel now only clears the codes you enter. Previously, clicking the Clear button would remove information from the entire left panel.

This update also ensures that your chosen calculator/grouper is maintained when you update the Codes section, instead of making you start over from the CCI tab.

Review the latest VitalKnowledge features and enhancements. For more help and step-by-step instructions, go to the [VitalKnowledge Docs](#).

New Features and Enhancements

My Advisor updates

The following updates have been made to the My Advisor tab to reduce cognitive load and maintain consistency with Code Lookup:

- A left-aligned Search pane has been added to My Advisor. Previously, there was only a search box.
- Your search now begins only when you enter criteria and click Apply. Previously, it was suggestive search.
- The column and column headers on the Results Table have been realigned.
- A pagination bar has been added to allow you to page through the search results, and you can now see the exact number of items that come from your search.

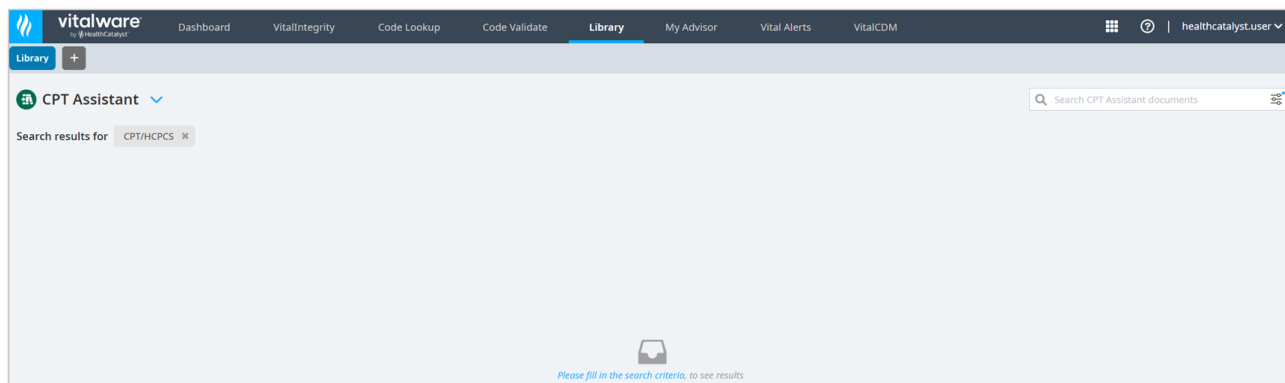

The screenshot displays the VitalKnowledge My Advisor interface. On the left, a search pane is visible with the following elements:

- All Questions** (dropdown menu)
- Date Search** section:
 - Date Field: Select a date field (dropdown menu)
 - Date: Select a date range (dropdown menu)
- Search By:** All (dropdown menu)
- Search all questions (input field)
- Clear and Apply buttons

On the right, the **Results** table is displayed with the following columns: Att, Title, Subject, Question Date, and Answer Date. The table contains 20 rows of results, each with a plus icon in the Att column. The pagination bar at the bottom indicates "Page 1 of 60" and "1 - 50 of 2970 items".

Default dataset in CPT Assistant

CPT Assistant under the Library tab now only defaults to CPT/HCPCS. Previously, CPT Assistant defaulted to CPT/HCPCS and ICD-CDM.

Add device offset information to the Results Table

You can now add the new Device Offset Percentage and Device Offset Amount columns to your Results Table in Code Lookup. This allows you to determine the proper percentage and amount of the device offset by CPT/HCPCS.

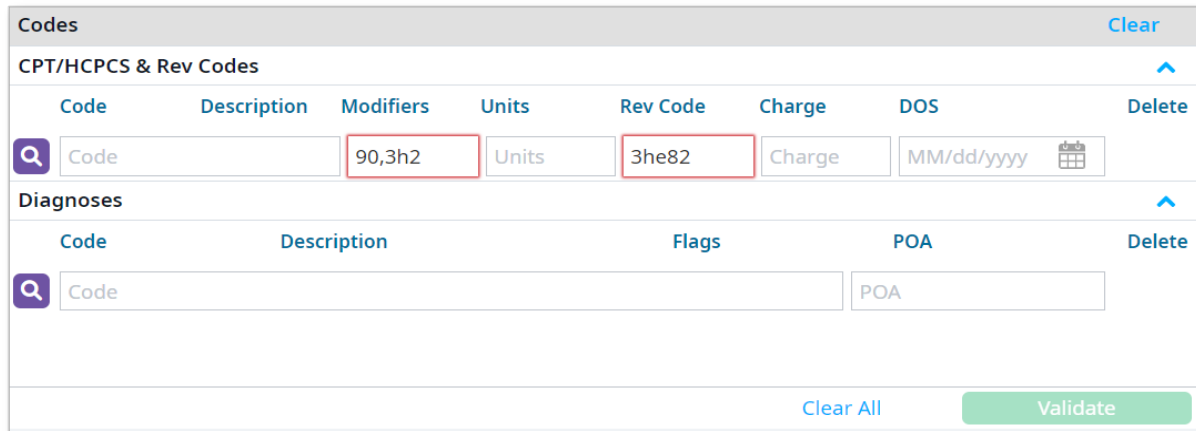

Click the Column Menu icon, and select Columns from the dropdown. Select Dvc Offset Amt and Dvc Offset Percent from the list to include the columns on your Results Table.

The screenshot shows the Vitalware Code Lookup interface. The 'Code Lookup' tab is selected. The search criteria are set to 'CPT/HCPCS'. The search results are displayed in a table. The table has columns for 'Term Results', 'CPT Index', 'Index', 'Fac Peer Pricing', 'Pro Peer Pricing', and 'ASC Pricing'. The 'Term Results' column is expanded, showing a list of codes. The 'Column Menu' is open, showing options to 'Sort Ascending', 'Sort Descending', and 'Columns'. The 'Columns' option is selected, and the 'Dvc Offset Percent' and 'Dvc Offset Amt' columns are added to the table. The table data is as follows:

Term Results	CPT Index	Index	Fac Peer Pricing	Pro Peer Pricing	ASC Pricing
☐ Add On	Code ↑				
☐ No	01484				
☐ No	01486				
☐ No	01820				
☐ No	21181				
☐ No	21208			\$0.25	\$1,384.09
☐ No	21209			\$0.04	\$239.06
☐ No	21275			\$0.17	\$932.22
☐ No	23491			\$0.40	\$5,011.11

Codes panel update for invalid codes

When you input an incorrect modifier or revenue code on the Codes panel, the box border now turns red, and the Validate button automatically disables.

The screenshot shows a software interface with two main sections: 'Codes' and 'Diagnoses'. The 'Codes' section is titled 'CPT/HCPCS & Rev Codes' and contains a table with columns: Code, Description, Modifiers, Units, Rev Code, Charge, DOS, and Delete. A search icon is on the left. The 'Diagnoses' section has columns: Code, Description, Flags, POA, and Delete, also with a search icon. At the bottom are 'Clear All' and 'Validate' buttons. In the 'Codes' table, the 'Modifiers' field contains '90,3h2' and the 'Rev Code' field contains '3he82'. Both of these fields have a red border, indicating they are invalid. The 'Validate' button is disabled (greyed out).

Code	Description	Modifiers	Units	Rev Code	Charge	DOS	Delete
		90,3h2	Units	3he82	Charge	MM/dd/yyyy	Delete

Code	Description	Flags	POA	Delete
			POA	Delete

New Features and Enhancements

Vital Alerts and Library updates

The following updates have been made to the Vital Alerts and Library tabs to reduce cognitive load and maintain consistency with Code Lookup:

Vital Alerts updates

- A left-aligned Search pane has been added to the Vital Alerts tab.
- Your search now begins only when you enter criteria and click Apply. Previously, it was suggestive search.
- A pagination bar has been added to allow you to page through the search results, and you can now see the exact number of items that come from your search.

The screenshot shows the VitalAlerts interface. On the left is a search pane with the following sections:

- Search:** Includes a "Hide Search" button and a search input field.
- Alerts:** A dropdown menu.
- Date Search:** Includes a "Date Field:" dropdown and a "Date:" dropdown.
- Search By:** Includes a dropdown menu.
- Search all alerts:** A search input field.

At the bottom of the search pane are "Clear" and "Apply" buttons.

On the right is a table of results with the following columns:

Issue ID	Alert Topic	Alert Date	Effective Date	Implementation...	Affects Cdm	Alert Status
2024-0201	Testing - Test Correction	02/07/2024	01/01/2024	02/19/2024	No	Sent
2024-0202	Test - correction replacement final	02/07/2024	01/01/2024	02/19/2024	No	Sent
2021-1001	Renewal of Public Health Emergency (PHE) Due to COVID-19	10/21/2021	10/31/2020		No	Sent
2020-0715	Medicare Fee-for-Service (FFS) Response to the Public Health Emergency on the Coronavirus (COVID-19)	07/21/2020	03/01/2020		Yes	Sent

2020-0706	Point of Origin Code for Transfer From a Designated Disaster Alternate Implementation Delayed	07/07/2020	07/01/2020	08/03/2020	Yes	Sent
2020-0707	End Stage Renal Disease (ESRD) Prospective Payment System (PPS) Proposed Rule	07/07/2020	01/01/2021		Yes	Sent
2020-0702	CMS Issues Proposed Decision Memo for Transcatheter Mitral Valve Repair	07/02/2020			No	Sent
2020-0620	July 2020 Update to the Ambulatory Surgical Center (ASC) Payment System	06/29/2020	07/01/2020	07/06/2020	Yes	Sent
2020-0616	End of Blanket Waiver for Submitting Nursing Home Staffing Data and Quality Measures Announced	06/26/2020	07/29/2020		Yes	Sent
2020-0618	AMA Releases Three New Codes Related to COVID-19 Laboratory Testing	06/26/2020	06/25/2020	06/25/2020	Yes	Sent

At the bottom of the table is a pagination bar showing "Page 1 of 36" and "1 - 50 of 1767 items".

Library updates

- A left-aligned Search pane has been added to the Library tab.
- A pagination bar has been added to allow you to page through the search results, and you can now see the exact number of items that come from your search.
- The results from your search now automatically load. Previously, you were required to do a manual search to load results.
- There is no longer a default reference document type. You now have to manually select one.

The screenshot shows the Vitalware application interface. The top navigation bar includes 'Dashboard', 'VitalIntegrity', 'Code Lookup', 'Code Validate', 'Library' (selected), 'My Advisor', 'Vital Alerts', and 'VitalCDM'. The 'Library' tab is active, displaying a search results table for 'AHA Coding Clinic for HCPCS'. The table has columns for 'Type', 'Date', 'Title', and 'Document'. The search results are filtered by 'Document Date' and 'Code Search'. The search text is 'AHA Coding Clinic for HCPCS doc'. The results table shows 15 items, with the first 10 visible. The pagination bar at the bottom indicates 'Page 1 of 31' and '1 - 50 of 1522 items'.

New Features and Enhancements

ICD-10 PCS Code Builder tab

Code Lookup now features the new ICD-10 PCS Code Builder tab, which allows you to start from a general category and progressively narrow down your search until you reach your desired code. The Code Detail pane appears at the bottom of the screen when you reach the code you're searching for. This tab makes it easier to sift through the large inventory of medical terminology in the ICD-10 PCS dataset.

The screenshot shows the VitalKnowledge application interface with the 'Code Lookup' tab selected. The 'ICD-10 PCS Code Builder' is active, displaying a multi-step selection process. The steps are: Section (6), Body System (A), Operation (2), Body System (2), Duration (1), Qualifier (Z), and Qualifier (Z). The final ICD-10 PCS Code is 6A221ZZ. The interface includes a search bar, a list of results for each step, and a 'Detail' pane at the bottom showing the code type and code.

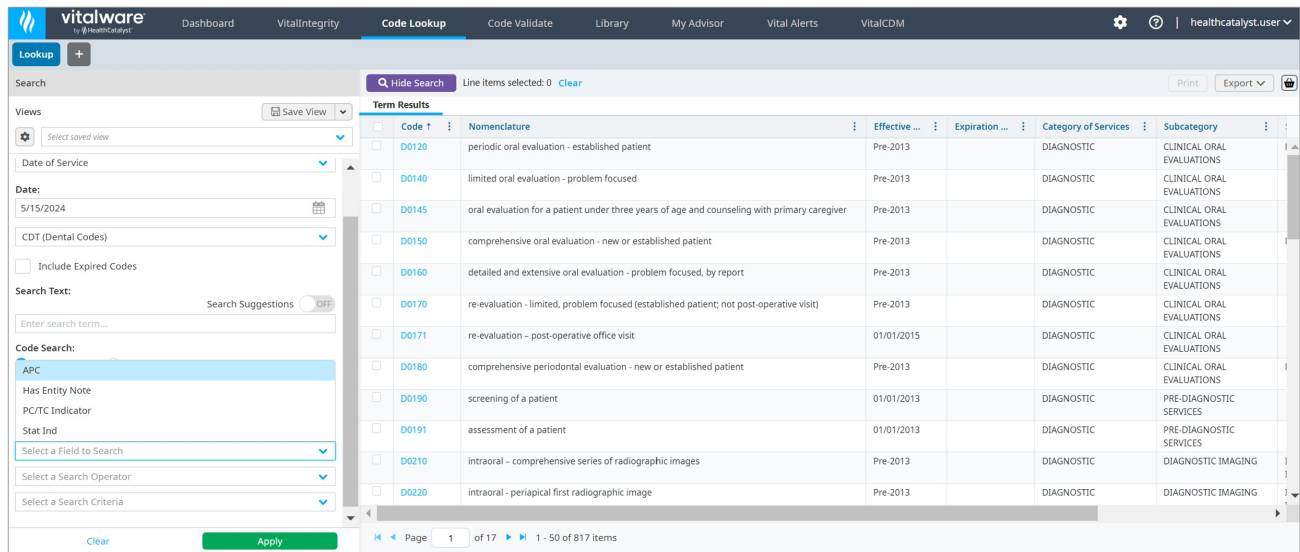

Section	Body System	Operation	Body System	Duration	Qualifier	Qualifier
6	6A	6A2	6A22	6A221	6A221Z	6A221ZZ

ICD-10 PCS Code: 6A221ZZ

Detail: Code Type: ICD-10 PCS, Code: 6A221ZZ

Additional search fields for CDT (Dental Codes)

Status Indicator, APC, and PC/TC Indicator are now additional search fields for when you select CDT (Dental Codes) as your Dataset on the Search Panel.

The screenshot displays the Vitalware Code Lookup interface. The top navigation bar includes links to Dashboard, VitalIntegrity, Code Lookup (active), Code Validate, Library, My Advisor, Vital Alerts, and VitalCDM. The user is logged in as healthcatalyst.user. The left sidebar contains search filters: Views (Save View), Date of Service (5/15/2024), Date (5/15/2024), CDT (Dental Codes) (selected), Include Expired Codes (unchecked), Search Text (empty), Search Suggestions (off), Code Search (APC, Has Entity Note, PC/TC Indicator, Stat Ind, Select a Field to Search), Select a Search Operator, and Select a Search Criteria. The main area shows a table of results with columns: Code, Nomenclature, Effective Date, Expiration Date, Category of Services, and Subcategory. The table lists various dental codes (D0120, D0140, D0145, D0150, D0160, D0170, D0171, D0180, D0190, D0191, D0210, D0220) and their descriptions. The bottom of the interface shows a pagination bar indicating 1 of 17 items, 1 - 50 of 817 items.

Code	Nomenclature	Effective Date	Expiration Date	Category of Services	Subcategory
D0120	periodic oral evaluation - established patient	Pre-2013		DIAGNOSTIC	CLINICAL ORAL EVALUATIONS
D0140	limited oral evaluation - problem focused	Pre-2013		DIAGNOSTIC	CLINICAL ORAL EVALUATIONS
D0145	oral evaluation for a patient under three years of age and counseling with primary caregiver	Pre-2013		DIAGNOSTIC	CLINICAL ORAL EVALUATIONS
D0150	comprehensive oral evaluation - new or established patient	Pre-2013		DIAGNOSTIC	CLINICAL ORAL EVALUATIONS
D0160	detailed and extensive oral evaluation - problem focused, by report	Pre-2013		DIAGNOSTIC	CLINICAL ORAL EVALUATIONS
D0170	re-evaluation - limited, problem focused (established patient; not post-operative visit)	Pre-2013		DIAGNOSTIC	CLINICAL ORAL EVALUATIONS
D0171	re-evaluation - post-operative office visit	01/01/2015		DIAGNOSTIC	CLINICAL ORAL EVALUATIONS
D0180	comprehensive periodontal evaluation - new or established patient	Pre-2013		DIAGNOSTIC	CLINICAL ORAL EVALUATIONS
D0190	screening of a patient	01/01/2013		DIAGNOSTIC	PRE-DIAGNOSTIC SERVICES
D0191	assessment of a patient	01/01/2013		DIAGNOSTIC	PRE-DIAGNOSTIC SERVICES
D0210	intraoral - comprehensive series of radiographic images	Pre-2013		DIAGNOSTIC	DIAGNOSTIC IMAGING
D0220	intraoral - periapical first radiographic image	Pre-2013		DIAGNOSTIC	DIAGNOSTIC IMAGING

Release Notes

VitalKnowledge

June 13, 2024

Review the latest VitalKnowledge features and enhancements. For more help and step-by-step instructions, go to the [VitalKnowledge Docs](#).

New Features and Enhancements

FAC Peer Pricing Settings update

The Fac Peer Pricing Settings popup now features Add and Remove buttons, allowing you to better identify what's featured in the Hospitals Available for Selection and Hospitals Selected sections. You also now have the option to search by All Fields in the Hospitals Available section. Previously, you were only able to search by Hospital, City, or State.

Fixes

We're continuously working to improve your experience using VitalKnowledge. This release includes a number of behind-the-scenes bug fixes, maintenance updates, and optimizations to support that goal.

Get Started. Get Help. Collaborate.

New Features and Enhancements

OPPS Calculator update

You can now update specific sections of an entire line on the Codes panel when the OPPS Calculator is selected. Previously, you only had the option to click the delete icon and reenter information for the entire line if you wanted to update a specific section.

CPT Section

The Results Table now features a CPT Section column, allowing you to view which section a CPT code is associated with. You also now have the option to select CPT Section as a filter in the Field Search section on the Search panel.

New buttons, icons, and color-coding in Vital Alerts

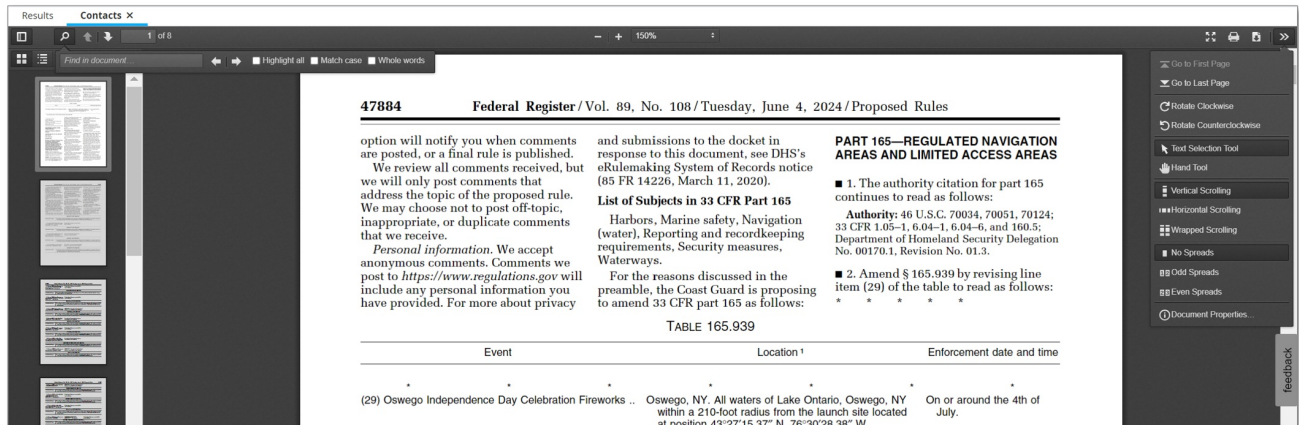

Vital Alerts now features new button, icons, and color coding to allow you to better view how alerts have been affected.

- Yes in the Affects Cdm column is highlighted orange.
- No in the Affects Cdm column is highlighted green.
- Sent in the Alert Status column now includes a green arrow icon.
- The entire row is highlighted pink when an alert has been rescinded.
- The Rescinded Transmittal column's items are highlighted yellow.
- The Replacement Transmittal column's items are highlighted in blue.

New Features and Enhancements

Related codes update

Related codes in the Vital Alerts tab are now hyperlinked, which allows you to review information related to the codes. When you click the hyperlink, the code detail pane appears.

The screenshot shows the Vital Alerts interface. At the top, there's a 'Vital Alerts' tab and a search bar with 'Show Search'. Below the search bar, the results are displayed for 'View: 2024-0701 X'. A table titled 'Related Code(s):' lists three codes:

Code	Code Type	Long Description
0001U	CPT	Red blood cell antigen typing, DNA, human erythrocyte antigen gene analysis of 35 antigens from 11 blood groups, utilizing whole blood, common RBC alleles reported
0017U	CPT	Oncology (hematolymphoid neoplasia), JAK2 mutation, DNA, PCR amplification of exons 12-14 and sequence analysis, blood or bone marrow, report of JAK2 mutation not detected or detected
0086U	CPT	Infectious disease (bacterial and fungal), organism identification, blood culture, using rRNA FISH. 6 or more organism targets, reported as positive or negative with

Below the table, the 'Detail' pane for CPT: 0001U is shown. It includes a navigation bar with tabs: Detail, Revision History, Guidelines, APC Info, Rev Codes, Modifiers, Fac SAF Analytics, Medicare PTP FAC, Medicare PTP PRO, LCD/Articles, Transmittals, and MLN Matters. The 'Detail' tab is selected, showing the following information:

- Code Type: CPT
- Code: 0001U
- Long Description: Red blood cell antigen typing, DNA, human erythrocyte antigen gene analysis of 35 antigens from 11 blood groups, utilizing whole blood, common RBC alleles reported
- Medium Description: RBC DNA HEA 35 AG 11 BLD GRP WHL BLD CMN ALLEL
- Short Description: RBC DNA HEA 35 AG 11 BLD GRP
- Consumer Friendly Description: Red blood cell typing
- Effective Date: 02/01/2017
- Deleted Date: N/A
- Status Indicator: [A](#)

LCD/NDC retired stamp

LCD/NCD articles in the Library tab now feature a retired stamp if they are expired.

The screenshot displays the VitalKnowledge interface. On the left is a search sidebar with fields for Dataset, Date Search, Start Date, End Date, Ncd ID, and Code Search. The main content area shows search results for 'NCD 100.9-2'. The selected result is 'NCD 100.9 | VERSION 2' titled 'Implantation of Anti-Gastroesophageal Reflux Device', with an effective date of 12/31/2020. A large red 'RETIRED' stamp is overlaid on the article title. The article content includes a description, indications, and a publication table. The publication table lists the number 100-3, title 'National Coverage Determinations', change request number 12254, transmittal number 10833, issued date 2021-06-08, and version 2021-06-09. A 'Revision History' section is also visible. On the right, a 'CONTENTS' sidebar lists links for Description, Indications, Publication, Revision History, HCPCS, Supported ICD-9, Not Supported ICD-9, Supported ICD-10, Not Supported ICD-10, ICD Never Covered, XRef, Key Words, and Attachments.

New Features and Enhancements

Search results from Global Search

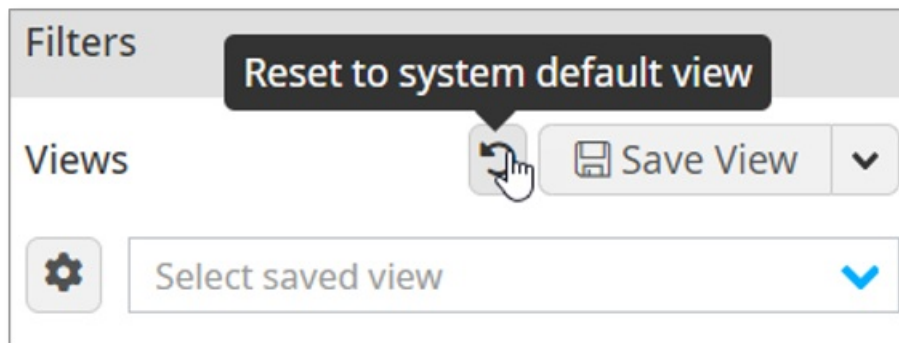

When you use the Global Search data set, the related tabs based off of your search criteria appear next to the Global Search tab.

Your results are made available on the Results table, which features a header that differentiates between the type of results that appear and the number of those results.

Click a hyperlink in the Code column to see more information about specific results in the Code Detail pane.

Result to default view in Code Lookup

Code Lookup now features a Reset system to default view button that allows you to go back to your starting point.

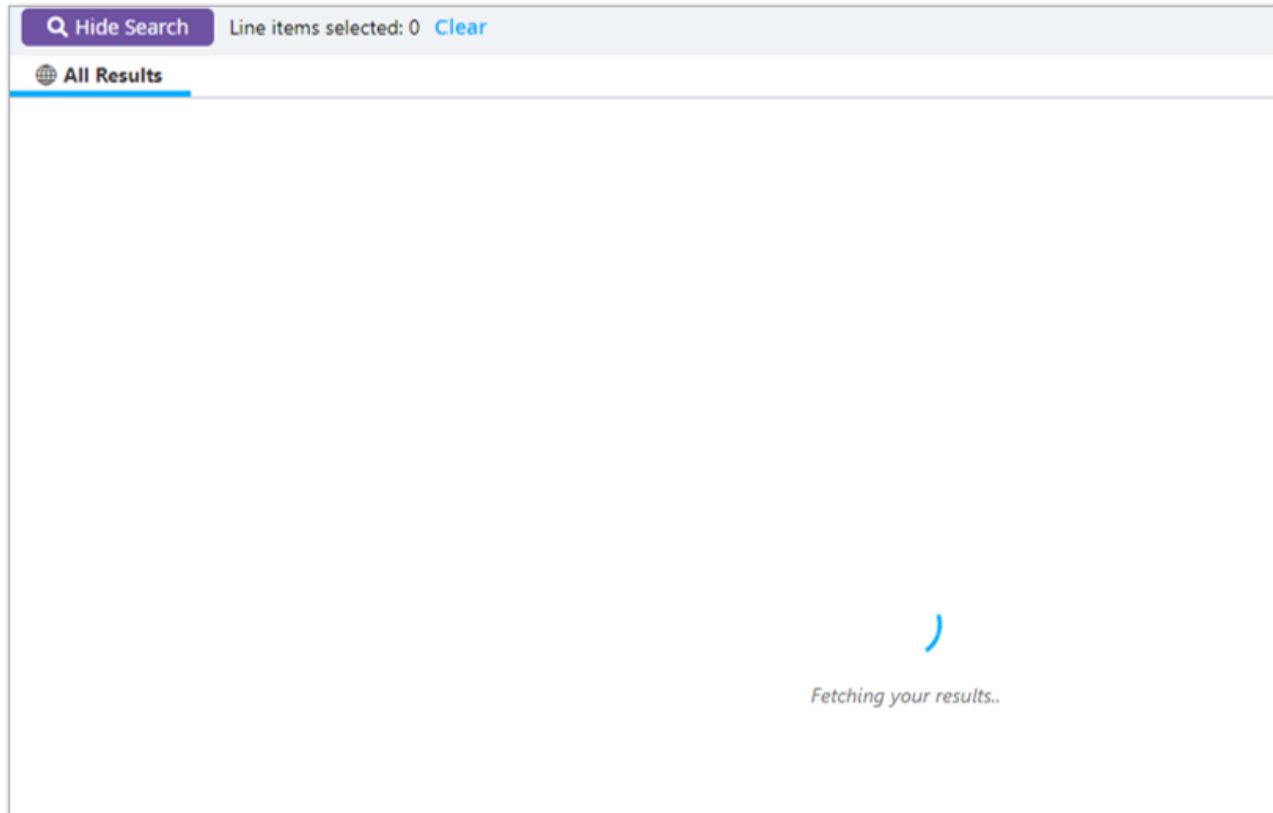

Global Search in Code Lookup

Global search is now the default data set on the Search pane in Code Lookup, which allows you to see the results for all data sets at once.

The screenshot shows the 'Global Search' interface. At the top is a blue button labeled 'Global Search' and a grey button with a plus sign. Below is a 'Search' header. The 'Views' section includes a refresh icon, a 'Save View' button, and a dropdown menu labeled 'Select saved view'. A 'Vitalware' dropdown is visible. The 'Date Search:' section has a 'Date of Service' dropdown. The 'Date:' section shows '9/26/2024' with a calendar icon. The 'Data Sets:' section has an information icon (i) and a dropdown menu. A tooltip is displayed over the information icon, containing the text: 'Global Search lets you find results from all data sets at once, searching both codes and text within definitions. You can also refine your search by selecting specific data sets.' Below the tooltip, there is a 'Global Se' dropdown, a checked 'Include' checkbox, a 'Search' button with a magnifying glass icon, and a 'Search suggestions' button. At the bottom is a text input field labeled 'Enter text and/or code'.

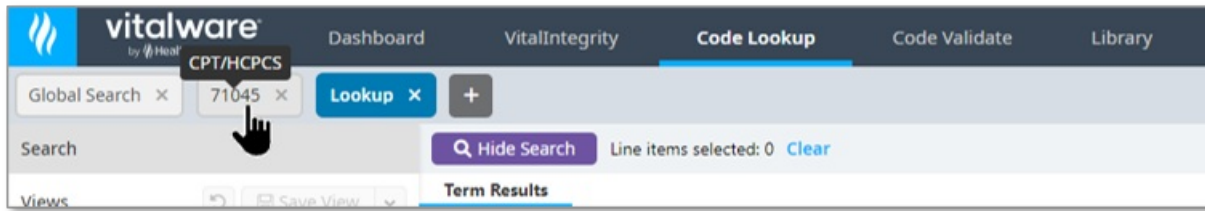

Global search progress spinner

When Global Search is selected, a progress spinner displays to signal that your search started.

Tooltips for Code Lookup tabs

The tabs for each search you conduct in Code Lookup now feature a tooltip that is associated with the dataset you chose for the search.

New Features and Enhancements

CDM Request option for the Global Search dataset

The Results table for the Global Search dataset in Code Lookup now allows you to select one or more items to add to a new or existing CDM Request.

The screenshot shows the VitalKnowledge Code Lookup interface. The top navigation bar includes Dashboard, VitalIntegrity, Code Lookup (active), Code Validate, Library, and More. The left sidebar contains search filters: Views (Save View), Vitalware, Date Search (Date of Service), Date (11/8/2024), Data Sets (Global Search), and a checkbox for Include Expired Codes. The main results table is titled "All Results 615" and shows a list of CPT/HCPCS 8 codes. A context menu is open over the table, showing options: "Add 1 item to Cart", "Open Code Tabs", "Add 1 item to new CDM Request", and "Add 1 item to existing CDM Request".

Code	Code Type	Long Description
33200	CPT	Insertion of permanent pacemaker with epicardial electrode(s); by thorac
33201	CPT	Insertion of permanent pacemaker with epicardial electrode(s); by xiphoid
33202	CPT	Insertion of epicardial electrode(s); open incision (eg, thoracotomy, media
33203	CPT	
33206	CPT	
33207	CPT	
33208	CPT	
3320F	CPT	None of the following diagnostic imaging studies ordered: chest X-ray, CT

New Features and Enhancements

Right-click in Global Search

Right-click results to add an item to the code cart or open code tabs when you use the Global Search data set.

The screenshot displays the VitalKnowledge Global Search interface. On the left, a sidebar contains search filters: Views (with a 'Save View' button), Date Search (Date of Service), Date (12/9/2024), Data Sets (Global Search), and a checkbox for 'Include Expired Codes'. At the bottom of the sidebar is a search input field containing '71045'. The main panel shows search results for 'CPT/HCPCS 2'. A table lists results with columns for Code, Code Type, and Long Description. The first result is '71045' (CPT) for 'Radiologic examination, chest; single view'. A right-click context menu is open over the first result, showing four options: 'Add 1 item to Cart', 'Open Code Tabs', 'Add 1 item to new CDM Request', and 'Add 1 item to existing CDM Request'.

Code	Code Type	Long Description
71045	CPT	Radiologic examination, chest; single view
J0291		azomicin, 5 mg

New format for Code Validate results PDF

The updated PDF export of Code Validate results gives you a better layout of the information.

Updated version:

vitalware by HealthCatalyst	
DRG	ALOS
204 - RESPIRATORY SIGNS AND SYMPTOMS	2.7
Weights	GMLOS
0.8109	2.1
Post Acut DRG	DRG Relative Weight
No	0.8109
Spec Pay DRG	
No	
Admitting Dx	
I10	Essential (primary) hypertension
Principle Dx	
R07.1	Chest pain on breathing
